

Sustainable pharmaceutical production

Join us for an afternoon of industry-relevant discussions on the topic of sustainability in the pharmaceutical production environment.

We're kicking off the event by looking at sustainability in pharmaceutical production from a big-picture perspective. Get ready for some deep dives in our presentations where we'll cover everything from managing water and chemicals to tackling CO2 emissions and exploring industrial symbiosis. To wrap things up, a panel discussion is being held that aims to connect the high-level view with the finer technical details.

Wednesday 13 March 2024, in the afternoon

NIRAS Green Tech Hub, Sortemosevej 21, 3450 Lillerød, Denmark

Register for the event here: [LINK](#)

We look forward to seeing you!

PROGRAMME

13.00 - 13.10	Welcome	Frank Lyngsø, Vice President & Lis Thodberg, Sustainability Director NIRAS
